

NEW 2024

ULTRA TOP & ULTRA SIDE

Innovative design and superior performance

- **Recyclable HDPE tank:** High-density polyethylene
- **Flow rate from 10m³/h to 14m³/h** (Ultra Top)
- **Flow rate from 10m³/h to 30,5m³/h** (Ultra Side)
- For pools from **60 to 180m³**
- Integrated meter
- Reinforced design
- Maximum operating pressure: **2.8 bar (40 PSI)**
- Maximum operating temperature: **50°C**
- 6-way valve

TANK WARRANTY

**10
YEARS**

VALVE WARRANTY

(excluding seals - domes - pressure gauge)

**2
YEARS**

FILTRATION EXCELLENCE

Ultra Top & Ultra Side filters represent the pinnacle of filtration technology. Rugged construction, **these filters withstand high pressure, guaranteeing exceptional durability even in the most demanding environments.** Advanced filtration technology uses specially designed elements to effectively remove impurities, fine particles, algae and other contaminants from water, creating water of unrivalled purity.

What's more, simplified maintenance makes it easy to clean and replace components, reducing downtime to a minimum. These filters are compatible with a variety of filtration pumps, offering easy integration into existing filtration systems, while maximizing energy efficiency to reduce operating costs.

These filters are suitable for a variety of applications, from residential pools to public aquatic complexes, and offer exceptional filtration, rock-solid durability and ease of maintenance, making them the ultimate choice for those who demand superior water quality.

Clamp with screw lock for easy installation and tool-free maintenance

Equipped with a 6-way multiport valve made of robust ABS and stainless steel

Easy-to-read pressure gauge for simple control
