RÉÉDUCATION

**INNOVATION 2019**

Its new structure in anodized 6063 T6 Aluminum allows it to display a featherweight of 11kg, ideal for entering and leaving the pool, while ensuring perfect rigidity. Coupled with its large feet and silicone suction cups, the Lanabike EVO is easy and reassuring to use.

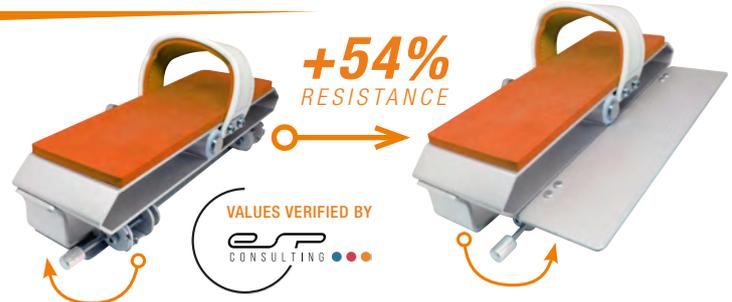

Its multiple settings for feet, saddle and handlebars, as well as its variable resistance pedals make them resolutely versatile.

**ANODISED ALUMINIUM STRUCTURE**

**40% LIGHTER THAN STAINLESS STEEL**

**AQUA DOUBLE SPEED PEDALS**

Designed in Aluminum and Stainless steel, the ADS pedals incorporate a folding flap mounted on a hinge. It unfolds and locks in a single gesture and increases the hydraulic resistance by 54%. You can amplify your cardio session.

Sport handlebars 45°

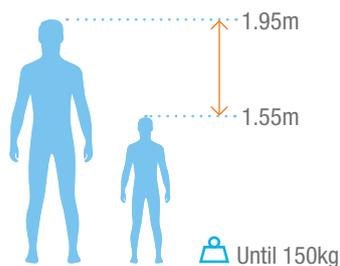

**OTHER ADVANTAGES**

- Lightweight (11kg)
- Comfort saddle
- Barefoot use
- Graduated saddle and handlebar settings
- Drainage express
- Sports ergonomics

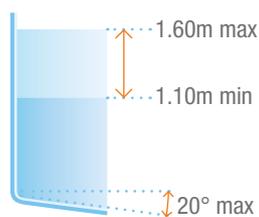

**ACCESSORIES INCLUDED**

**ERGONOMICS FOR ALL**

**ALL POOLS**
